

Water-Wise Landscaping for the Arizona Desert

Sat., May 8, 1:30 – 3 p.m., Red Mountain Branch Library

The Environmental & Sustainability Division and City of Mesa Library are presenting a *free* monthly workshop series featuring earth-friendly advice for your home and garden. Join us on **Saturday, May 8 with Master Gardener, Greg Morris** as he discusses landscape design ideas, plant selection and other water-wise tips.

No registration is necessary. Call (480) 644-4400 for more information.

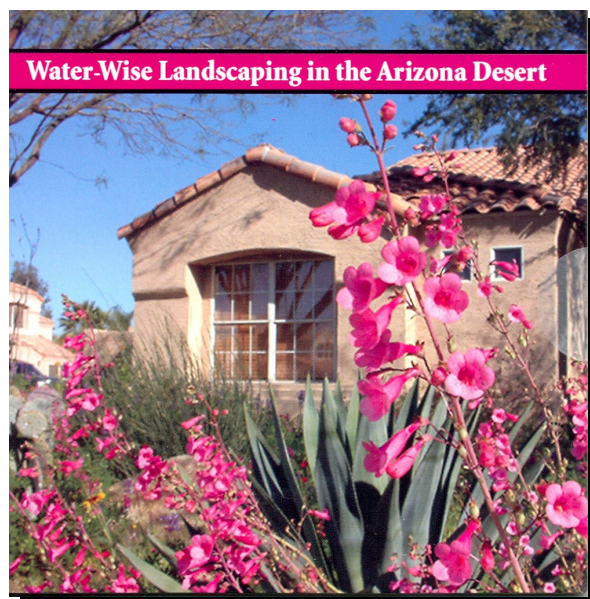

Course Description

Are you better on the computer than you are in your landscape? Why not combine the two? Come to preview PC-based software that will help with all your landscape needs from the comfort of your computer chair. Hundreds of design ideas are just a few clicks away on this free water-wise landscaping CD (IBM compatible only).

Speaker Bio

GREG MORRIS is a Master Gardener, Horticulturist and a Certified Professional Landscape Designer with 20 years experience. His focus has been on sustainable landscape techniques including practices such as green roofs, living walls, pervious pavement, SMART controllers, rainwater harvesting, native plants, wildlife habitat and use of renewable materials.

Greg is also a Certified Sustainable Landscape Designer, a Certified Landscape Irrigation Auditor, a Rainwater Catchment Accredited Professional and a Certified Pervious Pavement Technician. He is currently a principal at LAND FX Design Group, Inc. and president of the Association of Professional Landscape Designers - Phoenix District.
